Rémy Elazare - Senior Software Developer

remy.elazare@gmail.com / 514 886-5210

Core abilities : Coding & software design, data modeling, unit-testing, agile
Excellent communicator, fast learner, dedicated

Technical skills : Java (Core + JEE, Spring, Hibernate) , AWS, Python, Golang, PHP, Shell scripting, SOLR, RDBMS (MySQL, PostgreSQL), NoSQL, Javascript, Git, Maven, Gradle, Jenkins

Introduction_____

Seasoned developer and team lead, with a proven track record of delivering the best quality products under any budget and time constraints. I'm a problem solver at heart and I'm always looking to minimize the complexity of the technical design in order to create the most efficient an maintainable solutions.

Experience_____

Sept 2016- Jan 2017 : Software developer at Mirego
Core Java, Spring, Hibernate, Python, AWS (S3, Lambda), Heroku, Bintray
- Implemented the backend for a Mobile application and a web CMS using Spring Boot
- REST API and automated JSON feed generation (hosted on S3)
- Automated backups using AWS Lambdas

2014-2016 : Senior Manager Digital Development at Bell Media
Core Java, J2EE, Python, Ruby, SQL Server 2008, SOLR, Jenkins, Maven
- Implemented the processes and continuous integration to achieve a stable 2 weeks delivery schedule for multiple high traffic websites
- Helped stakeholders to elaborate product backlog and estimate cost vs risk/complexity
- Lead a team of 12 software developers, mentoring, process optimization, knowledge transfert

2010-2014 : Software Architect at Bell Media
Core Java, J2EE, Python, Ruby, SQL Server 2008, SOLR, Brightcove, Varnish, Akamai Edge Caching, Apache-Camel, Jenkins, Maven
- Team lead , established development standards (code-reviews, unit tests, qa) and on boarding process for junior engineers,
- Evaluated requirements and initial wireframes, made technology recommendations for optimal results, maintenance cost and performance
- Delivered high quality back-end services for 12 high-traffic media websites :
  - REST APIs for mobile applications

- contest engine
- Application to ingest and publish videos using Brightcove Studio using Apache-Camel
- 3rd-party integrations : Omniture, DoubleClick, Gigya, Cakemail, Brightcove Player

2009-2010 : Database developer at Creo
PHP, MySQL, Javascript, Shell scripting

- Creation of a database model for a multi player online game, designed to evolve easily with the game functionalities
- Database optimization and maintenance
- Web development using PHP and Javascript

2007-2009 : Banking IT Consultant at Mainsys Belgium
Core Java, Oracle 10G, PSSQL, IBM-MQ

- Development within complex backend systems using Java, Cobol and PL-SQL
- Test plans, user training and release management

2006-2007 : Software engineer at Meta4
Core Java, SQL, JSP, Javascript

- Oriented programming of ERP modules related to pay and legal tax reports
- Professional services consultant, on-site trainer

Education_____

2001 - 2006 - Master of engineering from ENSEIRB-MATMECA (Bordeaux, France)
Computer Science, Mechanical Engineering and Applied Mathematics.
